

MAR 21 2005

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Regarding: John C. Montagna et al.
Serial No. 10/696,342
Filing Date 10/29/2003
For PULL OUT DRAWER SYSTEM

"AF" Amendment

Attention: Art Unit 3612 -- Primary Examiner Dennis H. Pedder

M.S. AF, Commissioner for Patents, Alexandria, VA 22313-1450:

I certify that this correspondence is facsimile-transmitted
to the Patent and Trademark Office (703-872-9306) on 21 MAR 2005:

Christopher John Rudy: Christopher John Rudy Mon., Mar. 21, 2005.

Thank you for the 01/19/2005 Office action. In reply to it,
please enter this amendment, reconsider and further examine the
case, and withdraw the outstanding objection and rejections.

CLAIMS AMENDMENTS follow this introductory page.

This amendment more particularly points out and distinctly
claims the invention, and is fully supported by the underlying
specification including drawings. No new matter is added hereby.
Claims 1-18, 23-25, 27-30 and 32 are present. No fee is now due.

The Examiner is thanked for the courtesies rendered during
the phone interview of Mar. 18th. The undersigned submitted that
there is common ownership with Darbshire, US 6328364; the French
F-Channel is defined in the claims; "roller" can be inserted for
"cam-follower bearing"; "one" can be a set as can zero (null set)
but "set" will be deleted from claims; the slide-in/out accessory
slides in and out relative the movable mounting frame, unlike
Darbshire's drawer; and the 35 USC 102(e) rejection is new. The
Examiner seemed favorably disposed to the former, but said that
claims 26-28 were too broad, and that he would consider the
discussed amendment. The Examiner's comment is invited.

This amendment may be entered because it places the case in
condition for allowance or reduces issues for any appeal. The
Examiner's suggestions are followed. No new consideration nor
search is required. Nonetheless, the final status of the action
is traversed as PREMATURE. The new rejection under 35 USC 102(e)
should have been made in the previous action. Please, therefore,
withdraw the final status, and in any event enter this amendment.

STATEMENT OF COMMON OWNERSHIP: Application No. 60/423,631,
the domestic priority document to Application No. 10/696,342;
Application No. 10/696,342 itself; and Patent No. 6,328,374 were,
at the time the invention of Application Nos. 60/423,631 and
10/696,342 was made, owned by Durakon Acquisition Corporation.
